REORGANIZATION OF THE NEW HAVEN DOCK

New England Navigation Co. Will Be
Permitted to Participate.

New York, Aug. 3.—The New England Navigation company will be permitted to participate in the reorganization of the New York, New Haven & Hartford Railroad company under the terms of a decree issued here today by Federal Judge Mayer modifying the order issued against the road in connection with the filing of the government's suit to separate the two companies last April.

The navigation company, according to the decree, may deposit its bond holdings, amounting to \$1,500,000, with the reorganization committee, may subscribe not exceeding \$25 a share for 15,000 shares of the preferred stock and exchange them for 18,750 shares of the preferred stock of the new corporation and also exchange its bonds for \$1,500,000 in bonds of the company to be formed under the reorganization plan.

The decree was issued on motion of Charles M. Sheafe, Jr., counsel for the two companies and with the assent of Assistant United States Attorney Swacker and also provides that the stock and securities of the new corporation received by the navigation company shall be held subject to the same provisions as now control its holdings in the Eastern Steamship corporation.

WORD FROM CARRANZA

A DAY OR TWO.

Mexican Commissioners Already Have
Been Selected.

Washington, Aug. 3.—The final word from General Carranza necessary to initiate organization of a joint commission for settlement of border disputes is expected to reach Washington in a day or two and officials believe the commission's deliberations may begin with a week or ten days.

Official announcement in Mexico City today that Mexican commission-

ers already had been selected was taken as a sign that the American suggestion for broadening the scope of subjects to be considered at the conference probably had been accepted. Other than the Mexican embassy, the state department, however, had been officially advised tonight regarding selection of the commissioners or General Carranza's decision as to the matters they will discuss.

While no formal comment was made at the department in advance of official notification, there was nothing to indicate that the three commissioners named, Messrs. Cabrera, Bonillas and Paul, would not be entirely acceptable to department officials. President Wilson has a score of men under consideration for appointment as the American representatives, but it is understood he has not attempted so far to make a choice.

There are many indications that a high army officer will be one of those selected by the president because of the military nature of the problems to be considered. Major General Goehls has been mentioned. The other men under consideration include members of the supreme court and men in close touch with commercial and financial conditions.

Department officials have refused to what matters in addition to the military situation on the border they desire the commission to consider.

It is known, however, that the possibility of arranging financial aid for the de facto government has been talked over.

The commission's power will be only that of recommendation.

Amnesty For Former Villa Followers.
Mexico City, Aug. 3.—General Jose Robles arrived here today from Torreon with 500 former followers of General Canuto Reyes, a former follower of Villa, who has accepted amnesty. The men will be distributed among various regiments of the forces under General Carranza.

Ridgefield.—The Ridgefield band is giving Friday evening concerts in front of the town hall. Patrick Leary is conductor.

BERLIN'S ACCOUNT OF AIR RAID ON ENGLAND

Says Bombs Were Dropped on London and on the Fleet at Harwich.

Berlin, Aug. 3, via London, 7:14 p. m.—The raid last night by German Zeppelins resulted in the dropping of a great number of explosives and fire bombs on London, on the fleet at Harwich, and on industrial establishments in the county of Norfolk.

The Zeppelins were attacked by light British forces, but all returned undamaged, says the statement, which follows:

"During the night of August 2 a great number of our air ships again attacked the southeastern counties of England and successfully dropped a great number of explosive and fire bombs, especially on London, the fleet base at Harwich, on railway stations, and on, from a military viewpoint, important industrial establishments in the county of Norfolk."

"On their approach the airships were attacked by enemy light forces under the rays of numerous searchlights, but all returned undamaged."

BULGARS ATTEMPT TO SEIZE A RUMANIAN ISLAND

After a Lively Exchange of Shots the Bulgarians Fled.

London, Aug. 3, 8:07 p. m.—An attempt by Bulgarian soldiers to seize an island in the Rumanian waters of the Danube river close to the town of Giurgevo has caused a sensation there, according to reports received by Bulgarian newspapers. Rumanian frontier guards discovered the Bulgarians and raised an alarm. After a lively exchange of fire the Bulgarians fled.

Ansonia.—On the charge of intimidation during the recent strike William J. Zierl of Ansonia was fined \$100 and costs Wednesday, with a suspended six months' jail sentence added.

At Organists' National Convention

Herbert L. Yerrington of Norwich is in Springfield at the Annual Gathering—Many Recitals and Addresses are Interesting the Musicians.

For the second time, the National Association of Organists is holding its convention in Springfield, Mass., with ideal weather. Addresses have been given on important questions on the Tonal Appointment of the Organ by George Ashdown Audley, LL. D., the author of the two large volumes on The Art of Organ Building.

The Use of the Organ in the Church Service, with demonstrations by Henry S. Fry, organist of St. Clement's church in Philadelphia.

Desirable Changes in the Musical Settings of Anthems and Canticles by William D. A. Foster, director of the school of music, Alton, Ill.

Recitals to date, by Edward F. Lau, organist of Asylum Hill church, Hartford; Richard Koyss, organist of St. Luke's church, Brooklyn, N. Y.; Mrs. Kate Fox, F. A. G. O., organist of the Church of the Redeemer, Morristown, N. J. Mrs. Fox had the honor of being the first woman to give a recital on the organ at Ocean Grove auditorium, N. J., while the convention was held in the place.

Percy Chase Miller, organist of Grace church, Mt. Airy, Philadelphia, Pa., and representative of the Organ Players' club of Philadelphia.

High praise is heard for the auditorium organ. Mr. Biggs pronounced it a "magnificent instrument," the finest he had ever heard.

John H. Loud of Boston is quoted as saying that it is here to die and could give one recital before he died, he should want to give his last recital on the Springfield organ.

At the business meeting Wednesday afternoon the membership was reported as 708, about double that of last year. A proposition to have another class of members, who are not organists, to be known as associate members,

was provocative of much discussion, and was finally referred to the executive committee for consideration and to be voted on next year.

Invitations for entertaining the convention next year have been received from Springfield, Philadelphia, Buffalo, San Francisco, New York and also one from Oklahoma. A spirited discussion followed in regard to which place would be chosen. The favorites are Springfield and Philadelphia. The latter is putting up a strong fight to get the honor. It will be decided at another business meeting tomorrow.

Thursday morning members of the association were invited to be the guests of the mayor in an auto ride about the city. Two more recitals are on for today, one by Charles M. Court, organist of the First Baptist church, Syracuse, N. Y. (and, by the way, he is a native of Antwerp, Belgium), the other by Clifford Demarest, organist of the Church of the Messiah, New York, and representative of the American Guild of Organists. Tomorrow we have an address on 'The General Education of the Organist,' by Homer N. Bartlett of New York.

An exposition of original works by Ernest Krower, director of the Krower school of music, St. Louis, Mo., assisted by John A. O'Shea of Boston, organist, Miss Ada Allen Chadwick of Springfield, violinist, and A. H. Turner of Springfield, harpist. A recital in the evening by Dr. Francis Herrington of Chicago, and assembly of members and friends at supper at the Cooley hotel will bring the convention to a close.

Herbert L. Yerrington of Norwich, Town, organist at the First Congregational church in Springfield with fellow organists at the national association convention and writes The Bulletin at follows:

NEW HAVEN LOCOMOTIVES ARE NOT DEFECTIVE

Federal Inspectors' Action Meets With Criticism in Some Cars.

In connection with the discarding of engines by federal inspectors who have been engaged for some time in going over the condition of engines used on the New Haven road with the result that quite a number have been ordered retired from service, on the ground that they are not in proper condition for use, it was reported last night that there is a divergence of opinion between some of the workmen and employees of the road and the inspectors. Some of the former are considerably dissatisfied, it is said, over the discarding of some of the engines. It was reported last night that more engines are relegated to the shops every little while in small numbers and yesterday it was said that about six more had been ordered out of service as not up to standard.

In regard to some of the engines, it is reported, men who are in the employ of the road as shop and engine men, complain that only a small number of the federal inspectors who are in the service inspecting are experienced in the matter of boiler construction and repair and they differ with the inspectors in the case of some of the engines which have been discarded because of claimed imperfections or lack of condition of the boilers. Some of the men claim that the engines, in some cases at least, are not defective as far as the boilers are concerned and they feel, it is said, sore over the fact that given these engines on this score.

There was a report last night to the effect that some of the men were in favor of making a protest over the inspection and asking that the dispute between them and the inspectors be determined in some way which is correct about the condition of the engines.

Norwich Scouts Enjoyed Sail.
A Stonington correspondent writes: Monday afternoon Scoutmaster Roy George H. Ewing, with nine members of a troop of Norwich Boy Scouts, came to the borough and went for a pleasant sail down the sound in the cutter belonging to the local troop of scouts.

The Norwich scouts are spending some time at Lord's Point, where they have their tents pitched. Upon arriving in the borough Monday they went for a tour of inspection of the Stonington harbor, the wharf at which all went down to the wharf at which the cutter is moored.

A single shot pistol is built into a new club for policemen.

SHAY WILL BE ASKED TO CLOSE FERTILIZER PLANT

New Methods Would Cost \$20,000 and be Only a Makeshift.

A conference had been scheduled for Friday morning at 11 o'clock between Alderman Alton T. Miner, chairman, Mayor Ernest E. Rogers and Capt. Thomas A. Scott, members of the sub-committee of the general committee appointed by the New London Chamber of Commerce and C. M. Shay to solve the problem of the nuisance created by the Shay Fertilizer plant in Groton. On account of the absence of Captain Scott it has become necessary to postpone the meeting until the early part of next week.

It is expected at that time an effort will be made to induce Mr. Shay to close the plant for good. It is known that this is the wish of the navy department and that the government is willing to purchase the plant and surrounding grounds at a reasonable figure for the development of the submarine base. It is the feeling of the members that this is the only real solution of the difficulty and that the introduction of new methods of operating the plant, which incidentally would cost \$20,000, would be only a makeshift and would in all probability not be satisfactory to the navy department, which threatens to remove the submarine base if the nuisance continues to exist.

PROGRESSIVES TO PERPETUATE PARTY

(Continued from Page One)

ization left, bearing the name of John M. Parker of Louisiana, nominee for vice-president, in the hope of perhaps electing enough presidential electors, who might prove the balance of power in the event of a close contest between the two parties.

Among the states in which this plan will be carried out are: Louisiana, Maryland, Indiana, Missouri, Wisconsin, Michigan, Utah, North Dakota and Minnesota.

Plans to Perpetuate Party.
J. A. H. Hopkins of New Jersey was chosen treasurer of the rehabilitated party, and Matthew Hale of Massachusetts, vice chairman of the national committee, will be in active charge of the campaign.

An executive committee of fifteen members will be named by Vice Chairman Hale to co-operate with the fifteen members of the national committee who refused to vote for the endorsement of Charles E. Hughes at Chicago June 26, in rehabilitating the party. This committee will meet after the November elections to formulate

The Reid and Hughes Co

plans for the perpetuation of the party. These plans may include some kind of amalgamation with the prohibition, socialists and woman's parties. Edwin M. Lester of Indiana, A. D. Norton of Missouri, Bathbridge Colby of New York, C. F. Hoffman of Michigan, Harold Moton of Louisiana, and C. W. McClure of Georgia were named members of the executive committee. The other members will be announced by Vice Chairman Hale in a few weeks.

Address Issued by Conference.

The following address was issued by the conference:

"To the progressives of the country: At a national conference of the party held today in the city of Indianapolis, a resolution was unanimously adopted, condemning the action of the progressive national committee on June 26, 1916, as an illegal usurpation of authority not conferred upon it by the recent convention of the party, and denouncing its action as a breach of trust and repudiating the same in party's thought or wishes."

every respect as non-expressive of the party's cause, but have sought to preserve the party as an instrument for the expression of the popular will and to promote, without halt or interruption, the great aims to which the party is dedicated.

Betrayal of National Committee

"It is useless to deny or to deceive ourselves as to the grievous effect upon the party of this betrayal, which it has sustained through the defection of many of its leaders and through the betrayal of the national committee of the trust confided in it by the party membership. Men whom we have delighted to honor and whom we have joined to follow have not only abandoned the party's cause, but have sought to sacrifice its future and to compromise the dignity of its individual membership by a collusive undertaking with the republican party to deliver its vote to the republican party."

"The course of the national committee in every state where there has been free discussion and action."

Treasonable Attempt to Kill Party.

"This conference is the culmination of the treasonable attempt to put it out of existence as a national party and to deliver its vote to the republican party. The progressive party cannot be delivered. The attempt to do so has already recoiled upon its authors, and covered them with discredit and confusion."

"It is the sense of this conference that the action of the individual progressives on the presidency should be left to their individual judgment and conscience."

"Any effort to dictate the action of individual progressives must of necessity fail, and this conference recognizes the disparity in the way of every progressive to make up his own mind and to determine his own course."

In Control of Servile Committee.

"We have considered carefully the question of heading a new convention and completing our national ticket. The difficulties in the way of this course are at this late date insuperable. The fact that the party machinery in many states is in the control of servile committees who were involved in the scheme to deliver the party to the republicans, the further fact that the republican party is so far advanced and that more time will be required to assemble our party in convention, all have combined to bring us to the conclusion that a second convention of the party this year is impracticable."

To Preserve Party's Existence.

"The conference has authorized the appointment of a committee and has

confided to it the duty of taking appropriate measures to preserve our party's existence, and to make vigorous electoral contests. This committee will later announce a national conference of the party to be held at some convenient place after the election. At this conference ways and means will be considered for the maintenance of our party and the carrying forward of its great mission."

Demand an Accounting of Funds.

The conference instructed the chairman to demand from the treasurer of the progressive party an accounting of the funds contributed to the Bull Moose cause and a list of outstanding pledges and to ascertain whether any of the money had been expended for the benefit of any other political organization, and if so to take such steps as may be necessary to recover the funds."

In the debate over a motion offered by T. B. Sotham of Michigan to issue a call for the reassembly of the party's national convention to nominate a presidential candidate, Burton Vance of Kentucky referred to Theodore Roosevelt as "a traitor" to the progressive party. Later the motion was withdrawn after a discussion lasting several hours.

John M. Parker sent a telegram tonight to Oscar S. Straus of New York protesting against a letter sent out on stationery bearing Parker's name which it is alleged has been sent to progressives throughout the country, asking contributions for the Hughes campaign fund. The conference devoted some time to considering a plan which contemplates reading out of the party all those national committeemen who are now supporting Hughes, but finally abandoned the idea.

THOUSANDS OF SICK WOMEN

Helped Every Year by Common
Sense Suggestions Given Free
by The Lydia E. Pinkham
Medicine Co.

For forty years women suffering from all kinds of female ills have been writing the Lydia E. Pinkham Medicine Co. of Lynn, Mass., for advice.

Thus they receive common sense suggestions drawn from a vast volume of experience, and thousands of sick women have been saved from untold suffering, as letters like the following clearly show:

Newark, Ohio.—"Lydia E. Pinkham's Vegetable Compound has made me a well woman. Your Sanative Wash is just the thing to overcome female weakness. I have told young mothers as well as older ones about your remedies, and what they have done for me. I think Lydia E. Pinkham's Vegetable Compound saved my life, as my health was very bad when I wrote you, but now I can do my own work and have not had a sick day since I began taking your remedies. I keep the Compound and Liver Pills on hand all the time."—Mrs. Geo. Thompson, 24 Sherwood Court, Newark, Ohio.

Why don't you write for free advice? Address Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass.

KEEPING COOL IN LAKE MICHIGAN

After killing 305 Chicagoans including many babies, one of the worst hot spells in the city's history ended in an eighteen mile breeze from the north. The sufferers resorted to all known means of obtaining relief, and the Lake Michigan "breeze" was a mother and her two children in the lake waters.

auto tire as a buoy is pictured The hot spell began July 11, and for almost three weeks the temperature was constantly above normal. There is no indication of a return of the heat for several days, according to the weather bureau. Many other sections of the United States report protracted heat waves.
